About the Role

Location: Onsite - Morris Plains, NJ

Shift: Wednesday - Saturday 2:30pm - 1:00am

Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

365 days a year, we aspire to be the best manufacturer of Cell & Gene therapies to ensure our patients have the treatments they need to live longer, healthier lives.

Under general direction, perform testing and other activities in functions supporting the Quality Control department (Micro/EM, QC Bio-assay, and raw materials, as appropriate).

- Perform Bio-Analytical testing such as Flow, ELISA, cell count, cell viability, qPCR as well as micro/EM testing such as environmental monitoring, gram stain, sterility, endotoxin, and mycoplasma.
- Perform raw material testing such as HPLC, GC, FTIR, osmolarity, UV/VIS, polarimeter, refractometer, and viscometer.
- Maintain controls and reference standards to support testing. Maintenance of Cell Lines and cell banks.
- Review/approve data generated by other team members.
- Perform method qualification/optimization of methods as per appropriate protocols.
- Contribute to OOS/OOE investigations and deviation investigations.
- Knowledge of LabWare LIMS and/or other QC data systems.
- Maintain GMP/GLP quality systems and follows quality policies

Diversity & Inclusion / EEO

We are Equal Opportunity Employers and take pride in maintaining a diverse environment. We do not discriminate in recruitment, hiring, training, promotion or other employment practices for reasons of race, color, religion, gender, national origin, age, sexual orientation, gender identity or expression, marital or veteran status, disability, or any other legally protected status. We are committed to building diverse teams, representative of the patients and communities we serve, and we strive to create an inclusive workplace that cultivates bold innovation through collaboration and empowers our people to unleash their full potential.
