Icra said the

of normalisation. "With some further recov-

ery expected in H2, Icra is revising its earlier estimate of

sales volume decline in FY2021 to 35-40%," it said in a statement.

Icra said the uptick in absorption levels during the second quarter of FY21 has been driven by affordable and mid/upper-mid segments.

The residential real estate segment witnessed a sharp recovery in the September quarter, post a severe decline in O1FY21. "The Covid-19 pandemic

had triggered one of the worst demand crashes that the Indian residential real estate industry witnessed in recorded history.

"Overall, the housing sales volume witnessed a year-onyear decline of 50% in H1 FY2021 across the top eight cities of the country,"

Icra said. However, sales volume bounced back considerably, with a quarter-on-quarter growth of 60% recorded across property markets in the second quarter of the cur-

rent fiscal.

WhatsApp introduces 'disappearing messages'; to get erased in 7 days PRESS TRUST OF INDIA feel lighter and more private,"

New Delhi, November 5

WHATSAPP ON Thursday said it is introducing 'disappearing messages' feature on its platform that will allow new messages sent to a chat to disappear after seven days. The feature will be rolled out to all users this month. The Facebook-

owned company said the goal is "to make conversations WhatsApp feel as close to in-person as possible, which means they shouldn't have to stick around forever". "That's why we're excited to introduce the option to use disappearing messages on WhatsApp. When the 'disappearing messages' feature is turned on, new messages sent to a chat will disappear after 7 days, helping the conversation it said in a statement. In a one-to-one chat, either person can turn disappearing

messages on or off. In groups, administrators will have the control. "We're starting with seven days because we think it offers peace of mind that conversations aren't permanent, while remaining practical so you don't forget what you were

chatting about. The shopping list or store address you received a few days ago will be there while you need it, and then

disappear after you don't," it explained. Earlier this week, WhatsApp

had said it has redesigned the storage management tool to make it more useful for people to easily identify, review and bulk delete content that may be filling their phone.

Homemakers go digital for festive shopping, gifting, finds EY survey

PRESS TRUST OF INDIA Bengaluru, November 5

INDIAN HOMEMAKERS ARE increasingly adopting digital payments and online applications for both work and entertainment, according to a latest report by consultancy firm EY.

The report 'Sentiments of India: Homemakers, Backbone of Our Homes' explores shift in the behaviour and consumption patterns of homemakers and their households across areas like digital adoption, increase in shopping basket size, festive spending, work ambitions, and the evolving social dynamics of homemaking.

The findings are based on the survey responses of 385 Indian homemakers across the urban adult population across the country, an EY statement said.

Festivities are likely to be smaller, more intimate, and more digital as homemakers may continue to feel cautious during the festive season. The report said 84% of them mentioned that they would prefer celebrating with only members from their household and 44% wish to avoid crowded market-

Festivities are likely to be smaller, more intimate, and more digital as homemakers may continue to feel cautious, it says

places. The fear is stronger in high spenders with 52% likely to avoid visiting crowded marketplaces. Online sales are expected to pick up with 28% homemakers planning to shop online for most festive requirements, the statement said.

Partner of design thinking and digital transformation, EY India, Shashank Shwet, said though there is an accelerated uptake of online shopping among homemakers, digital literacy remains a bottleneck for wider adoption of digital channels, especially in the older age categories. "To eliminate this digital

divide, brands should develop user-friendly interfaces specially designed for this segment. They should also leverage marketing campaigns and influencers from peer groups to educate homemakers about the safety and in-built security of online transactions", Shwet said.

 The outbreak of COVID-19 pandemic across the globe and in India has contributed to a significant decline and volatility in the financial markets and slowdown in the economic activities. The Reserve Bank of India (RBI) has issued guidelines relating to COVID-19 Regulatory Package and in accordance therewith, the Group had provided moratorium on the payment of all principal amounts and/or interest, as applicable, falling due between 1 March 2020 and 31 August 2020 to all eligible borrowers classified as standard. For all such accounts, where the moratorium was granted, the asset classification remained at a standstill during the moratorium period.

The extent to which the COVID-19 pandemic will ultimately impact the Group's results and carrying value of assets (including goodwill) will depend on future developments, which are highly uncertain. The Group's impairment loss allowance estimates are subject to a number of management judgments and estimates, which could undergo changes over the entire duration of the pandemic. Given the uncertainty over the potential macro-economic condition and related judicial decisions on matters arising from the regulatory guidelines, the impact of the COVID pandemic on the financial performance may be different from that estimated as at the date of approval of these financial results. Such changes will be prospectively recognized. The Group continues to closely monitor any anticipated material changes to future economic conditions.

 The above unaudited financial results have been reviewed by the Audit Committee and subsequently approved at the meeting of the Board of Directors held on 5 November 2020. The unaudited financial results have been subjected to limited review by the Statutory Auditor of the Company.
